

Fatty Acid Science and Technology (F.A.S.T.) Experts™

Emery Oleochemicals' Agro Green business platform specializes in formulating unique, natural-based products for weed control offered under our EMERION® brand.

Beginning with natural-based feedstock, our proprietary development process includes rigorous in-house lab formulation development and testing as well as collaborative university and field trials to ensure our commercial products meet key market needs.

Typical Uses

- Pre-plant vegetation burndown
- In-season row middle vegetation control
- Spot spray of undesired vegetation
- Pre-harvest crop desiccation
- Post-harvest or dormant sprays

Key Benefits

- Results in 15 minutes
- Readily biodegradable
- Exempt from tolerance
- 4 hour restricted-entry interval (REI)

Application Rates

Recommended rate depends upon cropping system, application timing, and vegetation size. See label for details.
