

Emery Oleochemicals GmbH sources RSPO certified raw materials, mainly fatty acids, from suppliers at the market. To ensure the time-bound sourcing of legal, responsible and deforestation-free palm-based raw materials, we publish our own

No Deforestation, No Peat, No Exploitation (NDPE) Policy

that pushes our suppliers to advance an environmentally and socially responsible palm oil industry in line with the RSPO Principles and Criteria 2018. Our suppliers shall be encouraged to strive for the following points (main focuses):

- **No Deforestation:**
 - No burning
 - No development of High Conservation Value (HCV) Areas
 - No development of High Carbon Stock (HCS) Forests
- **No Development on Peat:**
 - Best Management Practices for existing plantations on peat
 - Progressively reduce greenhouse gas (GHG) emissions on existing plantations
- **No Exploitation of People and Local Communities:**
 - Respect and recognise the rights of all workers including contract workers
 - Facilitate the inclusion of smallholders into the supply chain

We encourage our suppliers to conduct assessment on the high-risk palm oil mills in their supply chain in view of these topics.

Düsseldorf, March 2023

Jörn Ellerbrake

General Manager, Emery Oleochemicals GmbH
